Smarter Preparation with Aegis' PDPM Impact Profiler

Aegis Therapies® is committed to helping you prepare for PDPM and to equip you with the resources to help ensure success every day after. Uncover valuable insights into the strengths and weaknesses of your current MDS coding processes and discover areas your organization needs to begin focusing on today.

The PDPM Impact Profiler is an innovative tool developed to deconstruct the projected impact of PDPM on your business in several ways:

- **Payment Implications**
  - o Evaluates the effect on each component of the new system (PT, OT, SLP, Nursing, and NTA)
  - o Examines results on a per bed, per stay, and per day basis

- **CMI Implications**
  - o Calculates weighted average CMI for each discipline
  - o Compares results to national averages

- **PDPM Case-Mix-Groups Distribution of Days**
  - o Highlights specific areas of opportunity and importance of proper coding
  - o Compares results to national averages

- **RUG-IV Distribution of Days**
  - o Illustrates current utilization patterns by RUG category
  - o Identifies potential causative factors for overall impact

- **Optimization Potential**
  - o Estimates forecasted revenue recovery opportunity by discipline
  - o Emphasizes impact on daily reimbursement rates
  - o Demonstrates benefits of improved coding accuracy

- **Trends**
  - o Analyzes changes over time in the key areas of importance
    - CMI
    - Payment impact
    - RUG-IV days
  - o Assists with planning for future state strategies
